House Demolitions in the Negev

Today (12 December) four houses and one shack were destroyed in the unrecognized Bedouin village of Um Mitnan: One house belonging to Abu Ashiba Family and three houses and one shack belonging to Al Kashar family. 30 children remained with no roof over their heads in the cold winter.

The village of Um Mitnan was recognized lately as part of the Abu Basma regional Council. By demolishing their houses, the government puts pressure on the residents who reside outside the borders of the new planned village to move inside instead of negotiate with them
